## Evaluation Factors for Award

### FAR 52.212-2 Evaluation--Commercial Products and Commercial Services (20 January 2026)

(a) **Evaluation factors.** The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers: Factor I - Technical Capability, and Factor II - Price. Factor I - Technical Capability is equal to Factor II - Price.

(b) *Options.* The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. (c) *Notice of award.* A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

### 52.212-2 ADDENDUM - EVALUATION - COMMERCIAL ITEMS (DEC 2006)

a. FAR 52.212-2(a) is supplemented as follows:

#### Basis for Award

The Government will award a single award, Firm Fixed Price (FFP), contract from this solicitation. Award will be made on the basis of meeting the acceptability standards for non-price factors; fair and reasonable price determination; demonstrated responsibility in accordance with the Federal Acquisition Regulation; and quote which conforms to the solicitation requirements. The solicitation requirements include all stated terms, conditions, representation and certification, and other information required by this solicitation. The Government reserves the right to award without discussions. Therefore, the initial quote should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if determined necessary by the Contracting Officer. Only the lowest price will be evaluated for technical acceptability. If the lowest is deemed technically unacceptable, then the next lowest priced quote will be evaluated until technical acceptability is met. Once technical acceptability is met, no other quotes will be evaluated.

**Factor I - Technical Capability.** The Government will evaluate the Offeror's quote to meeting all of the objectives in the Performance Work Statement (PWS). The Government will evaluate the completeness of the Offeror's concept and approach to address how the offeror will meet the objectives in PWS Sections 2.1, 2.2, 2.3, 2.4, and 2.5. The offeror's technical capability will be evaluated for each objective within the PWS and the offeror will be assigned a rating for each objective. A rating of unacceptable for any objective will result in an overall rating of unacceptable under this solicitation.

The Government will utilize the below technical rating system for the evaluation of all proposals against Factor I (Technical Capability). Table 1 below outlines the ratings and their descriptions:

| Adjectival Rating   | Description                                                  |
|---------------------|--------------------------------------------------------------|
| <b>Acceptable</b>   | Proposal meets the requirements of the solicitation.         |
| <b>Unacceptable</b> | Proposal does not meet the requirements of the solicitation. |

Factor II - Price. The Government shall evaluate the offeror's completed pricing schedule (Attachment #4) for each CLIN as required, and any supporting documentation applicable. The Offeror shall provide sufficient price information to allow the Contracting Officer to determine the price fair and reasonableness of the proposed prices. No ambiguities of inclusion, exclusion, or content shall be extended and lack of content or clarity with regard to pricing shall be considered as representing an unacceptable quote. The agency will first evaluate offerors' prices, and then evaluate the apparent lowest-priced quote to determine if it is technically acceptable. If the lowest-price quote is evaluated as unacceptable, then the agency will consider the acceptability of the next lowest-price quote, continuing this process until an offer is determined technically acceptable.
